

Vinayak Somnath Bodke

B.Tech CSE (Artificial Intelligence & Data Science Student)

Phone: +91 7498833735 | Email: vinayakbodke82@gmail.com | Location: Pune, India | GitHub: github.com/vinayakbodke82

OBJECTIVE

Enthusiastic and results-oriented B.Tech AI & Data Science student with practical experience in data wrangling, exploratory analysis, and building machine learning models using Python and SQL. Eager to apply strong analytical abilities and visualization skills in a Data Analyst internship to help teams make well-informed, data-backed decisions.

EDUCATION

Pimpri Chinchwad University , Pune, India B.Tech CSE (Artificial Intelligence & Data Science) CGPA: 6.77/10	2023 – 2027
D.Y. Patil Arts, Commerce and Science College , Pune, India Higher Secondary Certificate (HSC - Class XII) Score: 55%	Passed: 2023
Lions Club High School (SSC Board) , Pune, India Secondary School Certificate (SSC - Class X) Score: 78%	Passed: 2021

SKILLS

Data Analysis & ML	: Exploratory Data Analysis (EDA), Data Preprocessing, Feature Engineering, Statistical Analysis, Machine Learning
Python Libraries	: Pandas, NumPy, Scikit-Learn, Matplotlib, Seaborn, Streamlit
Database Systems	: SQL, MySQL, PostgreSQL, SQLite
Languages	: Python, R, SQL
Developer Tools	: Jupyter Notebook, Google Colab, VS Code, Git/GitHub

PROJECTS

Fitness Tracker Data Analysis

- Collected and cleaned user activity datasets including steps, calories, sleep patterns, and workout logs using Pandas; handled missing values and inconsistencies to ensure data quality.
- Performed exploratory analysis to identify fitness trends, activity correlations, and user behavior patterns.
- Built an interactive Streamlit dashboard with Matplotlib and Seaborn visualizations; used SQL to query and aggregate user performance metrics across time periods.

Data Analysis Dashboard

- Ingested and preprocessed raw multi-source datasets; resolved missing values, duplicate records, and outliers to produce clean, analysis-ready data.
- Conducted thorough exploratory analysis to uncover key trends, distributions, and variable correlations.
- Designed an interactive dashboard featuring histograms, scatter plots, heatmaps, and KPI cards to communicate actionable insights; wrote optimized SQL queries to extract and aggregate structured data efficiently.

STRENGTHS

- Sharp analytical thinker:** Adept at distilling complex data findings into clear, compelling narratives for both technical and non-technical audiences.
- Proactive and self-directed learner:** Consistently picks up new tools and methodologies with minimal guidance.
- Strong communicator:** Dependable team collaborator with excellent verbal and written communication skills.

CERTIFICATES

Data Science & Analytics	: AWS for Data Science, R Programming, Python for Data Science, Computer Networking
-------------------------------------	---

Management

: Agile with Jira, Agile Project Management, Personal Productivity
